

Redefine Meetings

With Microsoft Teams Rooms

Flexibility will define the new era of work.

How will you adapt to the change?

See how Insight and Microsoft are empowering the next-generation workforce with an inclusive, innovative approach to meaningful collaboration.

Hybrid work is here to stay.

Remote work may be booming, but hybrid is taking hold:

of remote employees are likely to consider shifting to a hybrid work model.

of leaders are currently redesigning meeting spaces for hybrid work.

of employees are open to digital immersive spaces in the metaverse for team meetings.

more applications are received for remote jobs than for on-site roles.

Meeting challenges

Microsoft Teams Rooms redefines modern meetings.

Microsoft Teams® Rooms is an innovative and customizable software and hardware solution empowering effective interpersonal collaboration — in-room and anywhere.

In the office

On the go

At home

Anywhere

Create inclusivity and interactivity in one intelligent space.

- Teams panel**
Provides an at-a-glance view of the room schedule and allows you to reserve available meeting spaces
- Touch-screen console**
Connects to input devices, including laptops and mobile devices, and integrates additional conference room hardware
- Collaboration bar**
Delivers clear audio and cutting-edge video that frames the meeting room to equalize in-room and remote participant experiences
- Intelligent content capture**
Enables remote participants to see presentation content clearly and in real time, without disruption, due to built-in AI
- Inclusive video layouts**
Lets you choose your optimal video conferencing space, with options for collaborative huddles, dozens of participants and everything in between
- Intelligent speakers**
Labels captions and transcripts automatically with the name of the correct participant using AI for smart voice identification
- Next-gen joining options**
Reduces complexity for participants with fast, effortless one-touch join, proximity join and voice-command join, while keeping traditional dial-in capabilities
- Wireless content sharing**
Makes collaborating a breeze with easy-to-use content and screen sharing from any device at the touch of a button

Benefit from superior integration, flexibility and simplicity.

Teams Rooms makes meetings more of what they should be:
